I have been in the flower business 35 years.

I have hundreds of fine seedlings, all large blooms, all choice, no two alike. Many of them should be named. Some will be. You can name them what you please. One hundred, no two alike, for $3.00. 25 and 50 sold at same rate, if you live beyond third zone, and will enclosure postpaid, I will put in some extra fine ones. I have a great demand for my Iris seed. Many choice kinds of seed here in the south. I sell a large package for 25 cents, with instructions for planting. You may get a good one. Try them.
